Letter to EPA on NTP 2017 Formaldehyde Study Report - Final.pdf
Attachment 1- NTP Research Report on Absence of Formaldehyde Induced Neoplasia - August 2017.pdf

Hi Richard –

I'm passing along this note to NCEA from the ACC Formaldehyde panel. In looking at it more closely, I don't think you would have originally received it based on the email address they used. If you did already receive it, there is no change.

NCEA is working on a draft response, which will go through our official correspondence system from NCEA and signed by Tina. IOAA will have an opportunity to review prior to it being sent out.

Please let me know if you have any questions,

Maureen
